## EDUCATION

**Andhra Loyola Institute of Engineering & Technology (ALIET)** Sep 2023 – Jun 2027  
B.Tech in Computer Science & Engineering (Data Science), Affiliated to JNTUK **CGPA: 8.12/10.0**  
*Top 20% of Branch (Bonafide Certified, Mar 2026)    Coursework: ML, DSA, AI, Cloud Computing, DBMS, Software Engineering*

## TECHNICAL SKILLS

|                        |                                                                                 |
|------------------------|---------------------------------------------------------------------------------|
| <b>Languages</b>       | Python, Java, JavaScript, SQL, C, HTML/CSS                                      |
| <b>AI / ML</b>         | TensorFlow, Keras, PyTorch, scikit-learn, XGBoost, OpenCV, Neural Networks      |
| <b>Data Science</b>    | Pandas, NumPy, Matplotlib, Seaborn, Power BI, Feature Engineering, EDA          |
| <b>Web &amp; Cloud</b> | React.js, Node.js, Flask, RESTful APIs, TailwindCSS, Google Cloud, Oracle Cloud |
| <b>Tools</b>           | n8n Workflow Automation, Git/GitHub, Cursor AI, Prompt Engineering, AI Agents   |

## PROJECTS

**AgriLink — Smart Agricultural Marketplace with AI Soil Analysis** *React.js, Flask, TensorFlow/Keras, OpenCV | Feb–Mar 2026*

- Built a full-stack platform connecting farmers with equipment rental, worker hiring, crop calendar, and land monitoring; [deployed on GitHub Pages](#).
- Implemented live webcam ML soil classifier (5 classes) with real-time predictions every 1.5s; RESTful Flask backend with automated CI/CD pipeline.

**MindWell — AI-Powered Mental Health Platform** *Python, Google Gemini API, React.js | Sep 2025*

- Integrated PHQ-9 & GAD-7 clinical assessments with 24/7 Gemini-powered AI crisis detection; HIPAA-level local data processing with zero server-side storage.
- Generated personalised mental health profiles with professional interpretations and curated directory of licensed professionals.

**Automated Financial Manager & Fraud Detection System** *n8n, Gemini/Mistral LLMs, Google Sheets API, Gmail API | Jun 2025*

- Architected end-to-end n8n workflow: SMS alerts → LLM fraud analysis → Google Sheets logging → conditional alerts; **90%+ fraud detection accuracy, 75% fewer false positives**.

**Credit Score Prediction Engine** *Python, scikit-learn, Random Forest, Pandas | Jun 2025*

- Benchmarked Linear Regression, Decision Trees, and Random Forest; achieved **92% accuracy** with Random Forest after hyperparameter tuning and comprehensive EDA.

## PROFESSIONAL EXPERIENCE

**Full Stack Development Intern | Micro Information Technology Services** Jun 2025

- Built production-ready full-stack applications with RESTful APIs, scalable database solutions, and responsive frontends.

**Data Analytics Intern | TechnoHacks EduTech** May 2025

- Analysed large-scale datasets using statistical methods; created Power BI dashboards for stakeholder reporting.

**Data Science Intern | RineX.Ai** Mar 2024 – May 2024

- Built and evaluated ML models for business analytics; performed feature engineering on industry datasets.

## CERTIFICATIONS & ACHIEVEMENTS

- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional** — Oracle Aug 2025–2027
- AI Data Engineer** — Reliance Foundation | **Deloitte Data Analytics Job Simulation** — Forage Jun 2025
- Tata Cybersecurity Analyst Simulation** — Forage | **Cloud Computing Silver Medal** — NPTEL 2025
- HackerRank:** Problem Solving (Intermediate), Python, Java | **All India NCAT Qualifier**
- Hackathons:** GCA Hackathon (Google Developer Student Clubs) | Internal Smart India Hackathon 2025

## LEADERSHIP & IMPACT

- Head of Community, Mission Placements** — Daily AI/tech digests reaching **900+ post impressions**; mentored peers on industry trends.
- Workshop Facilitator** — Led GenAI & Power BI workshops at ALIET, mentoring **50+ students** in emerging technologies.
- Social Media Coordinator, AICUF** — Managed institutional digital communications and social media strategy.
